Echlin® Introduces New Coverage

Key Takeaways

- New emission control components, Turbocharger Kits and turbo system components have been introduced
- Echlin® has introduced 16 new Park Assist Sensors for import vehicles, and ABS Sensors for General Motors, RAM, and Toyota vehicles
- NAPA® Temp has introduced new numbers in key categories like new and reman Compressors, Hose Assemblies, and Expansion Valves

NEW YORK, N.Y., October 2, 2024 – Echlin® is pleased to announce that it has recently released 120 new part numbers. The most recent releases provide new coverage in a variety of key product categories with coverage for late-model import and domestic vehicles through the 2024 model-year. Echlin® and NAPA® Temp are dedicated to expanding product offerings for advanced driver assistance systems, advanced internal combustion engines, and other popular vehicle control and temperature control categories.

Included in this release are sixteen new Park Assist Sensors for import vehicles like the 2023-20 Hyundai Elantra, 2023 and 2021-06 Nissan Frontier, and popular Lexus vehicles through 2020. Six ABS Sensors have also been added with coverage for General Motors trucks and SUVs including 2024-20 GM heavy-duty trucks, and new coverage for RAM trucks and Toyota SUVs has also been added. Emissions systems are increasingly complex, and Echlin® is dedicated to the continued release of key EVAP and crankcase emission components. Canister Purge Solenoids are new for Ford and Lincoln vehicles like the 2024-20 Escape and 2023-20 Aviator, and Canister Purge Valves have been released for nearly 3 million Ford trucks. Engine Crankcase Breather Hoses, Fuel Vapor Canisters and Canister Vent Valves have also been released. Echlin's Turbocharger Kit Program sees expansion with New Turbocharger Kits, and related components like Turbocharger Coolant Lines have also been added.

NAPA® Temp introduces new coverage that includes new Compressors with coverage for over 1.7 million vehicles like the 2023-21 Hyundai Elantra and 2023-17 Subaru Impreza. Expansion Valves are new for vehicles like the 2023-21 Chevrolet Tahoe and 2023-21 Toyota 4Runner, and Brushless Blower Motors have been released for the 2024-20 Nissan Sentra, 2023-21 Buick Envision and more. New Hose Assemblies include Suction Lines for General Motors SUVs and the 2020-20 Honda CR-V, and Suction and Liquid Lines for the 2020-12 Chevrolet Sonic. Additional categories that see expansion include Heater Cores, Electric Coolant Auxiliary Pumps, and Evaporators.

All new applications are listed in the catalogs found at NAPAEchlin.com and NAPATemp.com and in electronic catalog providers.

About Echlin®

Echlin® engineers and manufactures top-quality ignition & electrical, emissions, fuel, wire, power management, sensors, safety-related systems components and more for import and domestic vehicles. This full line of premium automotive products includes diesel components, turbochargers, TPMS, VVT, ADAS and thousands of sensors and switches. Echlin's line of high-quality parts is unrivaled for their superior quality, original match and comprehensive coverage. For more information, visit NAPAEchlin.com. **NAPA® Echlin® Looks Right. Fits Right. Performs Right.**

About NAPA® Temp

NAPA® Temp manufactures and distributes a comprehensive line of quality replacement mobile climate control products. NAPA® Temp is the largest mobile climate control parts supplier in the industry and the largest compressor remanufacturer in the world. Customers can expect a quality product that is tested, validated and inspected before it ever leaves the building. Being a manufacturer and not simply a distribution house is something that separates NAPA® Temp from other suppliers in the aftermarket. For more information, visit NAPATemp.com.
