Echlin® and NAPA® Temp Released 2,367 New Numbers in 2024

NEW YORK, N.Y., January 2, 2025 – Echlin® is pleased to announce that it released a total of 2,367 new part numbers in 2024, including introductions from NAPA® Echlin® and NAPA® Temp. New coverage for late-model import and domestic vehicles was added across all powertrains, including advanced internal combustion engine (ICE), hybrid and electric.

Echlin's ongoing commitment to advanced internal combustion engine (ICE) technology is evident in this year's releases. The Echlin® Gas Fuel Injection program expands with the introduction of ten new Direct Injection High-Pressure Fuel Pumps covering 2.5 million import and domestic vehicles, and GDI High-Pressure Fuel Pump Kits were added for GM cars and SUVs. Additionally, 31 Gasoline Direct Injection (GDI) and Multi-Port Fuel Injection (MPFI) Fuel Injectors were added. Echlin's Turbocharger program expanded with the addition of several new Turbocharger Kits, as well as an array of related components such as Intercoolers, Bypass Valves, Wastegate Solenoids and more. Thirteen new Tech Expert® Oil Filter Housing Assemblies and Kits were introduced with coverage for Chrysler, Ford, BMW, Toyota, Audi, Volvo and more.

Emission control systems are increasingly complex, and Echlin® has them covered more than ever before, with extensive additions to its evaporative emission, exhaust gas recirculation, and crankcase emission programs. Multiple Canister Purge Solenoids and Valves have been introduced, as well as over 30 EGR Tubes, Engine Crankcase Breather Hoses for nearly 14 million vehicles, and Fuel Vapor Canisters for popular Ford, Toyota, Chrysler, Lexus and Toyota vehicles.

Multiple powertrain-neutral categories are forecasted to grow, and Echlin® has released extensive coverage in these categories. A total of 72 ABS Speed Sensors were added to Echlin's product line this year, and Advanced Driver Assistance Systems (ADAS) categories also saw substantial increases, with the addition of 53 new Park Assist Cameras and 76 Park Assist Sensors covering millions of late-model vehicles. Electronic Parking Brake Actuators were also released for over 13 million vehicles including the 2023-19 Mazda 3, 2024-23 Ford Heavy Duty trucks and Jeep SUVs through 2024.

NAPA® Temp introduced new coverage which included Hose Assemblies for millions of import and domestic vehicles. New Compressors were also added, with coverage for popular vehicles like the 2023-22 and 2023-21 Hyundai Elantra. Coverage for hybrid and electric vehicles expands with Electric Coolant Pumps for the 2022-16 Lexus RX450h, 2019-17 Toyota Highlander, 2019-18 Toyota Prius C and more. NAPA® Temp's Air Door Actuator program has expanded, with dozens of new numbers, offering coverage for Ford, Chrysler, Subaru, Infiniti, Toyota and more. Additional categories that see expansion include Water Inlets, Water Outlets, Evaporators, Heater Cores and more.

All new applications are listed in the catalogs found at NAPAEchlin.com and NAPATemp.com and in electronic catalog providers.

About Echlin®

Echlin® engineers and manufactures top-quality ignition & electrical, emissions, fuel, wire, power management, sensors, safety-related systems components and more for import and domestic vehicles. This full line of premium automotive products includes diesel components, turbochargers, TPMS, VVT, ADAS and thousands of sensors and switches. NAPA® Echlin's line of high-quality parts are unrivaled for their superior quality, original match and comprehensive coverage. For more information, visit NAPAEchlin.com. **NAPA® Echlin® Looks Right. Fits Right. Performs Right.**
